Construction Map

September - December 2024

Construction will be active during school hours.

CONSTRUCTION NOTES

- ⦿ Drivers - no through access to Branchton Rd. from Gatehouse Dr. / Lisbon Pines Dr. intersection.
- ⦿ Drivers - use the park and walk locations on this map to avoid delays and dangerous turnarounds.
- ⦿ Pedestrians - access to the Hasty Market plaza and Slater St. has not changed.
- ⦿ Pedestrians - access to Branchton Rd: use sidewalks on north side of Myers Rd. to avoid the construction zone.

“Local traffic only” means only traffic that can safely operate on the street or roadway to access a dwelling or structure up to the point of road closure and not beyond.

**We all need to do our part to stay safe so please remain alert and careful.
Obey ALL construction zone signs, personnel, and markings.**

Safety Tips

- Construction vehicles can move suddenly and quickly. Stay alert!
- Keep to the sidewalks where available, and cross only where designated.
- Watch where you're going! Construction work may be fascinating to watch but you need to get through the construction zone safely. Don't linger any longer than necessary.
- Give yourself extra time. You may need to wait until work and/or construction vehicles can be safely stopped to allow you through.
- Keep far away from open excavations and active construction vehicles. Don't assume workers know you are there!
 - Wait for eye contact and an acknowledgement that they are aware of you.
 - Be patient if they need to help escort you safely through the construction zone.

Things to watch for in construction zones

- Orange construction zone signs – show what is going on and how to travel safely through the construction zone.
- Construction worker acknowledgement – a hand signal or wave shows they have seen you and they will indicate when it is safe to proceed.
